Command and Staff

By Order of The Adjutant General:

Eric Peck

Brigadier General, KSARNG

Official:

 BARRY K. TAYLOR
 COL, GS, KSARNG
 Deputy Chief of Staff - Army

History. This is the first of this publication.

Summary. This OIP is state-wide standardization of organizational inspection program in the Kansas Army National Guard (KSARNG) while providing procedural guidance on inspections to senior commands. Additionally, it is designed to identify responsibilities of key stakeholder with respect to training management.

Suggested Improvements.

The proponent of this publication is the G3, KSARNG. Users are invited to send comments and suggested improvement to The Adjutant General's Department, ATTN: G3, 2800 Topeka Blvd, Topeka, KS 66611

1. PURPOSE. This regulation prescribes the responsibilities and policies for the planning and conduct of inspections and staff visits in the KSARNG.

2. APPLICABILITY. This regulation applies to all battalion level and higher commanders responsible for exercising command supervision of subordinate units.

3. REFERENCES.

- a. AR 1-201, Army Inspection Policy.
- b. AR 20-1, Inspector General Activities and Procedures.
- c. FORSCOM/ARNG. 350-2, Reserve Component Training.
- d. FM 25-100, Training the Force.
- e. U.S. Army Inspector General Agency, The Inspections Guide

4. RESPONSIBILITIES.

- a. The Deputy Commander Kansas Army National Guard will:
 - (1) Serve as the Organizational Inspection Program (OIP) Director
 - (2) Coordinate with JFHQ IG on all regulatory policies and mandate the conduct of any inspection.
 - (3) Ensure maximum consolidation for all internal and external inspections is planned and implemented as is intended in FORSCOM/ARNG Reg. 350-2.
 - (4) Establish staff assistance visit program policy that does emphasize assistance to subordinate echelons of the commands rather than pure inspection procedures.
 - (5) Develop a tracking/monitoring program that depicts all inspections/visits (external and internal) conducted for the command (possibly on a semiannual basis).
- b. The JFHQ IG will:
 - (1) Be the command's proponent for broad inspection policy.
 - (2) Review and advise JFHQ-LC Commander on regulatory guidance that mandates any inspection.
 - (3) Be prepared to conduct any type of inspection directed by the Commander, KSARNG.
 - (4) Advise commanders on inspection techniques and teach/train any inspection team members on "how to inspect" principles upon request.
 - (5) Keep the Commander, apprised of the effectiveness of the OIP and OAP within the KSARNG.
- c. Commanders battalion level and above will:
 - (1) Establish OIPs that incorporate staff assistance visits; provide for maximum consolidation of all inspections; and utilize the commanders, principle staff members and full-time staff in complementary rather than duplicative efforts.
 - (2) Utilize the current KANSAS ARMY NATIONAL GUARD Organizational and Command Inspection Guide.
 - (3) Ensure no more than one MUTA-4 per year is consumed by a formal inspection (command and staff) conducted by their command. Monitor all inspection conducted within their command to include external inspections.
 - (4) Designated a point of contact (normally XO) for the OIP.
 - (5) Provide a copy of any command inspection report to the JFHQ IG within 60 days after an inspection.
 - (6) Inform through the command chain to the Deputy Commander JFHQ, all inspections/staff visits (external and internal) programmed and conducted on a scheduled basis (possibly semiannually)
- d. Staff elements at all levels will:
 - (1) Ensure that required staff inspections and visits are coordinated with the unit/subordinate command OIP point of contact for inclusion in the appropriate command level OIP.
 - (2) Monitor their functional areas within their subordinate units.
 - (3) Conduct command directed staff inspections, to include follow up.
 - (4) Be prepared to provide training and assistance in proponenty area to subordinate units and to inspection team members if applicable.
 - (5) Conduct actual assistance visits for the purpose of providing assistance rather than solely staff inspecting.

5. INSPECTION POLICIES. The following policies apply to all JFHQ/MSI inspections.

- a. The overall intent of this OIP is to ensure all requirements for the reserve components are being addressed and attempts at all levels are being made to comply with the prescribed standards. However, strong emphasis is placed on elimination of overzealous inspection activities, which can severely interfere with unit operations and training.

- b. Inspections are a command responsibility. This responsibility encompasses all inspections conducted by the command (JFHQ/MSO) and its subordinate headquarters. All command and staff inspections will be conducted with the commanders and principle staffs present or they should not be conducted. This means hard decisions must be made to realistically schedule and conduct command and staff inspections, possibly on a less frequent basis. Commanders and principle staffs have responsibilities to other equally important facets of command and control in addition to inspections, which also require expenditures of precious time. Consolidation and frequency are key ingredients to inspections success in the KSARNG.
- c. The person in charge determines the category of an inspection, the inspection objectives, the method to achieve them and the inspection team composition.
- d. The requirement for written response to inspections should be judiciously applied to eliminate administrative burdens to inspection units that are already overly tasked with administrative work.
- e. Resources in the JFHQ (time, money and inspection expertise) can affect the support of inspections conducted by M-Day personnel. It is no secret that the full time staff normally had inherent to it the expertise in the areas of proponenty. However, utilizing only full time personnel to inspect should be avoided so that M-Day personnel expand their experience and further develop their expertise. The M-Day personnel are normally the principal staff and they should be able to teach/train the subordinates. However, unless the inspections process allows the M-Day personnel to be actively involved, the teaching and training process will never materialize.
- f. Inspections will be held to a minimum . Inspections of units during non-IDT time will not be allowed without total understanding by all players at all echelons as to whom is the proponent and who are the responsible individuals. This is a reemphasis of the role of the commander and the principle staff.
- g. Commanders at each level will attempt to consolidate certain unit requirements into the realm of required staff inspections where appropriate. This may not always be possible. But some performance-oriented activities, as noted below, can be included umbrella inspections. All intended objectives can met if prior planning and cooperation are maximized. Be creative.
- h. Examples of performance-oriented activities are:
- (1) Annual reviews of MPRJs, SIDPERS, or POM data. If scheduled properly, these activities could serve as a valid G-1/S-1 staff inspection, with the G-1/S-1 performing in an over-the-shoulder method to observe and assist.
 - (2) Weapons qualifications and AWT. If properly coordinated and observe by the G-3/S-3, these exercises could serve as a valid training inspection.

6. COMMAND INSPECTIONS.

- a. The commander and principle staff of the inspecting headquarters will conduct the Initial Command Inspection (ICI).
- b. The ICI is a formal inspection and will be conducted NLT 90 days after assumption of command. The 180-day window addressed in AR 1-201 will be allowed when short notice of a change of a commander occurs. However, time is precious in the KSARNG. Therefore, the necessity to apprise new commanders of the status of their units expeditiously is even more crucial for the KSARNG than in the AC.
- c. The ICI will be conducted utilizing the KANSAS ARMY NATIONAL GUARD Organizational and Command Inspection Guide.
- d. A formal one-on-one period between rater and new commander will be helpful for all level ICIs to address the goals and objectives for the new command. There should also be a similar type session between the CSM and the 1SG regardless of the tenure of either in their positions.
- e. The ICI is non-attributable to the new commander but instead it is a snapshot look at the unit's state of readiness. Any weak points will be addressed during the out briefing. The new commander will direct emphasis in those areas with the full support of the higher headquarters staff.
- f. If necessary, a follow up to the ICI will be conducted during an IDT period within 90 days and will not exceed four hours in duration.
- g. The next higher commander and principle staff will conduct the ICI for a battalion commander briefing (i.e. the quarterly command brief to the Commander, Army Guard) to include at least:

- (1) Review of all subordinate unit USRs and inspection reports.
- (2) All inspection reports (external and internal) within the previous commander's tenure or previous three years as a minimum.
- (3) Detailed mobilization briefing to ensure clarity at all echelons.
- (4) METLs for each subordinate unit and headquarters.
- (5) A synopsis report prepared by the JFHQ IG of key trends regarding requested for assistance within the JFHQ. That does not require the IG's presence but can be shared with the new commander.

h. The intent to conduct additional Command Inspections by the next higher commander is not realistic. There is no requirement to adhere to any type of annual or 18-month inspection cycle. A more realistic cycle of two years, to coincide with the normal command tenure, will be used. In cases where command tenure is extended, so too will be the cycle. Staff visits will occur to assist the units. Regulatory inspection (CSDPs, CLRTs, ARMs, COMETs, etc.) from JFHQ or external commands/agencies will be conducted during the command tenure. The intent to restrict inspections to one MUTA-4 per year will be observed closely for all inspections to ensure maximum adherence to the restriction.

7. STAFF INSPECTIONS.

a. Staff inspections normally focus narrowly on a single function or a few related functions. The official directing the inspection determines the inspection depth based on available resources and the inspection's complexity and priority.

b. Commanders are strongly encouraged to make staff inspections a portion of the command inspections as much as possible. Examples of this are:

- (1) In lieu of conducting of SCI and a CSDP, allow the CSDP to serve as a G-4/S-4 portion of what would constitute an SCI.
- (2) In lieu of the G-3/S-3 portion of an SCI, conduct an unannounced IDT training evaluation from an external headquarters (i.e., CONUSA or TNG BDE).
- (3) In lieu of the G-2/S-2 portion of an SCI, conduct a physical security inspection by the Anti-terrorism Force Protection Officer.

The constant need of staff personnel at all levels of command to consolidate inspections to the maximum cannot be emphasized enough. Commanders at all levels with ensure this happens.

c. Whenever possible, if a staff inspection occurs from a higher headquarters, the next lower headquarters should have representatives present, ensure collection of any data (reports) at the time of that inspection and utilize that data to assist in staff assistance as appropriate to subordinate units. An example of this is a CONUSA conducts a training evaluation of a JFHQ unit at the company level. A representative from battalion, brigade or possibly JFHQ should attempt to be present and gather data in an over-the-shoulder method for use as valid information gathering to assist that company in achievement of higher headquarters inspection or visit and even more importantly, elimination of duplicate inspections might prevail. This is not always possible as some inspection can occur with insufficient notification time through the chain of command to inspected units.

8. INSPECTOR GENERAL INSPECTIONS.

a. The development and conduct of IG in sections are specifically governed by AR 20-1. Inspectors General are prohibited from participating in command and staff inspections.

b. The JFHQ IG will normally conduct inspections for the Commander, KSARNG that focus on systems rather than strictly organizations with the JFHQ.

c. The IG will concentrate efforts in the follow up of weak areas identified in previous command, staff or IG inspections. The IG staffing of the JFHQ IG office does not allow for an extensive inspections schedule. Therefore, issues that affect the entire command will remain the focal point for IG inspections. An example of the IG's involvement could be to periodically review the effectiveness of the JFHQ OIP through follow up visits.

9. ADDITIONAL GUIDANCE.

a. The Deputy Commander JFHQ will resolve conflicts caused by inspection scheduling. However, the JFHQ IG and the lowest level commander down to battalion or equivalent will be consulted and will have input.

b. All inspections within the JFHQ will abide by the intent to consolidate inspections and will be annotated.

- c. External inspections to be conducted will require thorough analysis on the part of the Deputy Commander JFHQ and proper coordination by the commands and staffs affected to determine compliance with the interned policy of the MUTA-4 restriction previously defined.
- d. As a rule, to the maximum extent possible, schedule all inspections on the Yearly Training Calendar. This will reduce the need for excess preparation time, which can detract from training and portray a false snapshot at inspection time. Exceptions to this rule will apply where external no-notice inspections occur. No-notice internal inspections may be conducted but must have the Commander, KSARNG approval.
- e. Inspection reports will be provided to the inspected unit NLT 30 days following the inspection. Replies By Endorsement (RBE) will not be automatic. The normal procedure will be to require an RBE only if previously identified deficiencies are noted during a follow up inspection of any type.
- f. All inspections will entail a follow up within 90 days following the inspected units receipt of the inspection report.

SECTION 02.02 – INFORMATION SECURITY CHECKLIST
COMMAND INSPECTION CHECKLIST (CO)

C020200 - CLASSIFIED STORAGE

References: AR 380-5, FORSCOM Supplement 1 to AR 380-5, Draft IMA Supplement 1 to AR 380-5.

Note: If no classified information is stored at location check N/A for the question.

		GO	NO GO	N/A
C020201	The Security Management SOP outlines protective measures for classified materials when removed from storage for working purposes (AR 380-5 paragraph 6-24/FORSCOM Supplement 1 to AR 380-5 paragraph 6-24 a, b)			
C020202	The Security Management SOP outlines procedures for notification when a security container is found unlocked and unattended (AR 380-5, paragraph 6-10d,e/FORSCOM Supplement 1 to AR 380-5 paragraph 6-10d)			
C020203	The Security Management SOP outlines procedures to ensure only appropriately cleared personnel determine the contents of mail (AR 380-5 paragraph 8-1/FORSCOM Supplement 1 to AR 380-5 paragraph 8-1)			
C020204	Classified document cover sheets (SF703, 704, and 705) are placed on classified documents or files not in security storage (Ref: AR 380-5, para 6-10)			
C020205	Controlled Unclassified Information (CUI) is protected in order to prevent damage to national security (AR 380-5, paragraph 5-1)			
C020206	Information, which has been determined to qualify for FOUO status is indicated by markings when included in documents and similar material (AR 380-5, paragraph 5-2)			
C020207	During working hours, reasonable steps are taken to minimize risk of access by unauthorized personnel (AR 380-5, paragraph 5-5a)			
C020208	After working hours, FOUO information is stored in approved methods outlined in paragraph 5-5 (AR 380-5, paragraph 5-5)			
C020209	Sensitive But Unclassified (SBU) information is protected as that required for FOUO information (AR 380-5, paragraph 5-10)			
C020210	Proper procedures are followed when a possible compromise in security has occurred (AR 380-5, paragraph 10-1/FORSCOM Supplement 1 to AR 380-5 paragraph 10-1d/Draft IMA Supplement 1 to AR 380-5 paragraph 10-1d)			
C020211	Personnel who have their access suspended are immediately removed from all copies of the unit access roster and BN/BDE Security Manager is notified. (AR 380-5 paragraph 6-4)			
C020212	The Security Manager has conducted periodic spot checks on compliance with AR 380-5 and other security regulations and directives. (AR 380-5 paragraph 1-7i)			
C020213	* The classified information is properly guarded or stored in approved General Services Administration (GSA) containers. (AR 380-5, paragraph 5-102 and FORSCOM Supplement 1 to AR 380-5, paragraph 7-4)			
C020214	Combinations to security containers are changed at least annually and/or as otherwise required. (AR 380-5, paragraph 7-8/FORSCOM Supplement 1 to AR 380-5 paragraph 7-8g-l/Draft IMA Supplement 1 to AR 380-5 paragraph 7-8)			
C020215	The current and workable Emergency Removal Plan is Affixed to or near the container of vault. (AR 380-5 paragraph 6-12/FORSCOM Supplement 1 to AR 380-5, paragraph 6-12a,b/Draft IMA Supplement 1 To AR 380-5 paragraph 6-12a,b,c)			

C020216	The Emergency Removal Plan provides for the protection of classified material in a manner that will minimize the risk of injury or loss of life of personnel.			
C020217	The Emergency Removal Plan assigns a priority for emergency evacuation or destruction based on the type of classified material being stored.			
C020218	The records of combinations are assigned a security classification equal to the highest category of classified material authorized to be stored in the containers.(AR 380-5, paragraph 7-8c(3)			
C020219	SF 700 (Security Container Information) is maintained for each container used for storing classified information. (AR 380-5, paragraph 7-8c/FORSCOM Supplement 1 to AR 380-5 paragraph 7-8g-l/Draft IMA Supplement 1 to AR 380-5 paragraph 7-8a,c,c(1)			
C020220	Personnel who are listed on SF 700 have the appropriate clearance for access to the container. (AR 380-5, para 7-8e)			
C020221	Containers used for the storage of classified information or material are properly designated with a number or symbol affixed to each container. (AR 380-5, para 7-8) Note: There are no external markings on the container revealing the level of classification.			
C020222	Is part 2 of the SF 700 is marked with the highest classification maintained in the safe? (Reference as above)			
C020223	Is part 2 (combination envelope) of the SF 700 is stored in a central location? (Reference as above)			
C020224	The SM maintains a list of all personnel authorized access to the container with security clearance status noted. (Ref: AR 380-5, para 1-7)			
C020225	Personnel are aware of their responsibilities in the event of an actual or possible compromise. (AR 380-5, paragraph 10-1,2,3/FORSCOM Supplement 1 to AR 380-5 paragraph 10-1d, 10-3g, 3l/Draft IMA Supplement 1 to AR 380-5 paragraph 10-1d, 10-2b, 10-3a,g,h,i)			
C020226	The restriction, procedures and authorization requirements concerning escort and hand carry of classified are observed. (AR 380-5, paragraph 8-12/ FORSCOM Supplement 1 to AR 380-5 paragraph 8-12a)

H050220	Does the command meet the DoD delinquency goal of less the 2%? (JFHQ-KS SOP 37-112)			
H050221	Do all cardholders file their DTS travel voucher within five days of completing travel? (JFHQ-KS SOP 37-112)			
H050222	Do all cardholders utilize mandatory split disbursement or default disbursement as appropriate? (JFHQ-KS SOP 37-112)			
H050223	Does the LPC run the pre-suspension report monthly and take action to inform commanders or supervisors of pending problems? Is report annotated and filed? DoDFMR Vol 9, Chap 3, 030901C, 031003D, EAGLS user manual; DoD METL			
H050224	Does the LPC run the monthly delinquency report immediately after the cycle date (approximately 12th of each month)? Is there evidence that the report has been researched, delinquent individuals contacted, and resolution reached? Is report annotated and filed? DoDFMR Vol 9, Chap 3, 0310; 031003C, DoD METL			
H050225	Are periodic internal control reviews conducted on processing of travel claims as it directly relates to delinquency issues associated with the travel card? (JFHQ-KS SOP 37-112)			
H050226	Does the LPC monthly review the Airline Exceptions Report to identify unauthorized charges? (DoDFMR Vol 9, Chap 3, 0310; 031003B, DoD METL)			
H050227	Does the LPC review the Authorization/Declines Report to identify unauthorized charges, abuse and misuse? (DoDFMR Vol 9, Chap 3, 0310; 031003B, DoD METL)			
H050228	Does the LPC review the Non-Travel Activity Exceptions Report or the Transaction Activity Report to identify unauthorized charge, abuse and misuse? (JFHQ-KS SOP 37-112)			
H050229	Does the LPC review, at a minimum, the transactions of 10% of all active accounts on a monthly basis for fraud or abuse? (JFHQ-KS SOP 37-112)			
COMMENTS:				
ACCOUNT ACTIVITIES SUMMARY:				

#	Delinquency Management	GO	No Go	N/A
H050230	Has the LPC sent delinquency email notifications to the cardholder and the cardholders' supervisor/commander for all accounts with balances greater than 30 days past due? (JFHQ-KS SOP 37-112)			
H050231	Has the Chain of Command counseled in writing all cardholders with delinquent balances or instances of misuse/abuse? (JFHQ-KS SOP 37-112)			
H050232	By what method are cardholders and their respective supervisor/commander notified of the delinquency of the cardholder account? DoDFMR Vol 9, Chap 3, 030901C-F; Ann 2,3,4			
H050233	Does the Chain of Command initiate reduction in spending limits, deactivation of card privileges, or account closure when card misuse is identified? (JFHQ-KS SOP 37-112)			
H050234	Do leaders and manages take corrective action to ensure cardholders executing unauthorized transactions are counseled or disciplined to prevent future cardholder abuse? (JFHQ-KS SOP 37-112)			
H050235	Does the Chain of Command refer GTCC abuse and delinquency to the Security Manager, who will in turn refer the matter to the Central Clearance Facility for a determination on whether removal of the security clearance is warranted? (JFHQ-KS SOP 37-112)			
H050236	Does the Chain of Command take appropriate adverse/disciplinary actions in accordance with the UCMJ, KCMJ, state revised statutes or local union bargaining agreements as applicable when a cardholder is delinquent or has abused the GTCC? (JFHQ-KS SOP 37-112)			
H050237	In instances where supervisory action is not taken or is not effective is the issue/problem elevated up the chain of command? DoDFMR Vol 9, Chap 3, 030901C-F; Ann 2,3,4			
COMMENTS:				
DELINQUENCY MANAGEMENT SUMMARY:				

#	Deactivation Actions	GO	No Go	N/A
H050238	Are out processing personnel identified to the state APC to ensure that individual access to the card provider's electronic access system are terminated or modified as appropriate upon transfer of the individual? (JFHQ-KS SOP 37-112)			
H050239	Does the LPC notify the responsible APC of GTCC account holders that have retired, separated, or transferred to other units, states or Services? (JFHQ-KS SOP 37-112)			
H050240	Has the command incorporated procedures to notify the state APC of all separated, retired or deceased personnel to ensure that those accounts are closed? (DoDFMR Vol 9, Chap 3, 030701C, 030702, 030703, 030706)			
H050241	Are all cards for mobilized soldiers deactivated upon mobilization? (JFHQ-KS SOP 37-112)			
H050242	Are mobilizing soldiers briefed on the procedures to obtain access to their government travel card when deployed? (JFHQ-KS SOP 37-112)

**SECTION 05.04 – COMMAND AND STAFF
COMMAND INSPECTION CHECKLIST**

H050400 – ARMY EQUAL OPPORTUNITY

		GO	No Go	N/A
H050401	Commanders will publish and post written command policy statements down to company, troop or battery level. Post unit Commander's policy to include NGB CSMA Poster 94-170 (Discrimination Complaints Procedures), NGB-EO Poster 99-001 (Sexual Harassment), NGB-EO Poster 96-002 (Human Goals), NGB EO Poster 2001-160 (EO Hotline), and AGKS Policy #1 on unit bulletin boards. (The Commander's policy will reaffirm the AGKS Policy #1 commitment and that Discrimination and Sexual Harassment will not be tolerated. This statement will also explain how and where to file complaints and shall include the fact that all complainants will be protected from threats of reprisal.) This IAW para 6-2g(11), AR 600-20, dtd 15 Jul 99 and para 1-4f(5), NGR 600-21.			
	Were written command policy statements posted? (to include TAG policy letter)			
	Was NGB CSMA Poster 94-170 posted?			
	Was NGB-EO Poster 99-001 posted?			
	Was NGB-EO Poster 2001-160 EO Hotline posted?			
H050402	Company level commanders will conduct a unit climate assessment within 180 days of assuming command and annually thereafter. Information on conducting this assessment may be found at appendix F of AR 600-20. Commanders should supplement any survey efforts with individuals and group interviews, the analysis of unit records and statistical information (i.e. awards, promotions, reenlistment, misconduct) and with complaint reports. This assessment will provide a baseline for the commanders to develop action plans and implement program initiatives. Brigade EOA or STARC EOA can assist commanders in conducting their climate assessments. IAW AR 600-20, para 6-2g(12) and NGR 600-21, para 2-9.			
	Was climate assessment conducted within 180 days of command? (NGR 600-21, para 2-10a)			
	Was climate assessment conducted annually thereafter?			
H050403	Affirmative Action Plans (AAPs). Each MACOM, installation, separate unit, agency, and activity down to and including brigade-level or equivalent will develop and implement AAPs. Commanders will provide a copy of their AAP to the next higher commander. The use of the State Headquarters AAP may be utilized and/or altered to fit each brigade/unit. IAW AR 600-20, para 6-13 and NGR 600-21, chapter 5 and AGKS AAP. Unit AAPs will be written IAW DA Pam 600-26.			
	Did unit have an AAP or was unit utilizing an AAP?			
H050404	Authorized EO staff positions. EOA positions filled at Brigade level and above and EOA DEOMI trained or scheduled for training. IAW AR 600-20, para 6-4 and NGR 600-21, para 2-2a.			
	Were EOA positions filled (Brigade level only)?			
	Was the EOA scheduled for DEOMI training or already DEOMI trained?			
H050405	Appointment of EORs. Commanders must appoint (duty appointment) EORs in their units to include battery/detachment levels who are members of their chain of command. Recommended rank of SSG through 1LT. EORs are to be trained annually by the higher HQs EOA. IAW AR 600-20, para 6-2i and NGR 600-21, para 2-2g.			
	Were duty appointments on file?			
	Was EOR trained?			

H050406	Training. Unit EO training must be scheduled on the Yearly Training Plan (YTP) and conducted twice a year. This semi-annual training will include Prevention of Sexual Harassment (POSH) and any other type of EO training (i.e. "Consideration of Others, Special Observances, Discrimination, etc). Example of Training documented on YTP: (03 Mar 01, 0900-0930 hrs, Unit EO Training, 0930-1000 hrs, POSH training; 03 Sep 01, 0800-0830 POSH training, 0830-0900 hrs, Unit EO Training). Training roster file must be maintained with the following information: type of training, instructor, date, time and length of training, roster of attendees. IAW AR 600-20, para 6-14(2) and NGR 600-21, para 2-10a(2).			
	Was EO Training on the YTP?			
	Was Training conducted twice a year?			
	Prevention of Sexual Harassment:			
	EO Training:			
	Were training rosters with appropriate information on file:			
H050407	Reference Material. In order to maintain an effective EO program the following reference material must be maintained in each unit library:			
	AR 600-20, Army Command Policy, dtd 15 Jul 99			
	NGR 600-21, Equal Opportunity Program in the NG, dtd 14 Sep 01			
	NGR 600-22, NG Military Discrimination Complaint System, dtd 30 Mar 01			
	DA PAM 350-20, Unit Equal Opportunity Training Guide, dtd 30 Aug 93			
	DA Pam 600-69, Unit Climate Profile, Commander's Handbook, dtd 1 Oct 88			
	FM 22-100, Military Leadership, dtd 31 Aug 99

COMMAND INSPECTION CHECKLIST**

H050800 – FACILITIES MANAGEMENT

	FACILITY OPERATION	GO	NO GO	N/A
H050801	Is a Building Manager and an Assistant appointed? Has a copy of the appointment been forwarded to DOFE? Is the Certificate displayed in the facility? (KS-SOP 420-8, 1-3a)			
H050802	Did the Building Manager take action to ensure that facility deficiencies, especially (fire, safety and health), were corrected by self-help or submission of a Work Request through DOFE? (KS-SOP 420-8, 7-1)			
H050803	Is the building manager maintaining a status file for work requests? (KS-SOP 420-8, 3-1)			
H050804	Have self-help projects been approved prior to being accomplished? (KS-SOP 420-8, 3-6)			
H050805	Is the building manager maintaining a Historic Maintenance Log? Is the maintenance and service of real property being performed? (KS-SOP 420-8, 8)			
H050806	Are the facility and grounds clean and well maintained? 420-8, 7)			
H050807	Are Electronic Security Systems being tested on a monthly basis and a log of the test dates maintained? (KS-SOP 420-8, 13-4)			
	B. FACILITY EQUIPMENT			
H050808	Is State equipment (mowers, weed eaters, etc.) being maintained and serviced?			
H050809	Is a State Hand receipt holder appointed in writing by the Commander?			
H050810	Is all State property accounted for?			
	C. FACILITY ENERGY			
H050811	Have appropriate energy conservation measures been implemented? (AR 420-1, 22-12)			
H050812	Are temperatures in occupied facilities during the heating season set at the proper levels (72°F +/- 2°F during duty hours; 60°F +/- 5°F during non-duty hours)? (AR 420-1, 22-12b(1))			

H050813	Are temperatures in occupied facilities (wherever mechanical cooling is authorized) during the cooling season set at the proper levels (74°F +/- 2°F during duty hours; 85°F +/- 5°F during non-duty hours)? (AR 420-1, 22-12b(1))			
H050814	Are temperatures in warehouses, storage buildings, maintenance bays, and similar spaces set at the proper levels during heating season (55°F +/- 5°F during duty hours; 45°F +/- 5°F during non-duty hours)? (AR 420-1, 22-12b(1))			
H050815	Is the hot water temperature no greater than 110°F at non-food service facilities? (AR 420-1, 22-12b(3))			
H050816	Are appliances (such as fans, coffee pots, etc), computer monitors, and peripherals (such as speakers) turned off when not in use? (AR 420-1, 22-12d(3))			
H050817	Is general purpose office equipment (such as copiers, printers, fax machines, and similar equipment) turned off at the end of every business day? (AR 420-1, 22-12d(6))			
H050818	Are windows and doors closed when the HVAC system is operational? (AR 420-1, 22-12a(2))			
	D. FACILITY ENVIRONMENTAL			
H050819	Does the facility have an Environmental Compliance Officer (ECO) on order? (KS 200-1, 6-1)			
H050820	Is the ECO trained? (KS 200-1, 6-4)			
H050821	Does the facility have an EMS poster and video? (AR 200-1, para 15-3b, 15-3g)			
H050822	Is there documentation of the facility EMS briefing? (AR 200-1, para 15-3b, 15-3g)			
H050823	Do new soldiers view the EMS video as orientation? (AR 200-1, para 15-3b, 15-3g)			
H050824	Is the TAG's recycling MOI implemented? (KS 200-19-6)			
H050825	Is paper recycled? (KS 200-1, 9-6b)			
H050826	What other products are recycled? (KS 200-1, 9-6)			
H050827	Does anyone on site apply pesticides? (KS 200-1 8-3a)			
H050828	If yes, list the pesticides and who is applying them? (KS 200-1, 8-3a)			
H050829	Is anyone on site a certified pesticide applicator? (KS 200-1, 8-3b)			

H050830	Is there a contract for pesticide application on site? (KS 200-1, 8-10a)			
H050831	Do on-site personnel maintain their own refrigeration/air conditioning systems, including vehicle air conditioners? (KS 200-1, 2-3)			
H050832	Are on-site personnel certified/trained to work with CFCs/halons? (KS 200-1, 2-3)			
H050833	Is the freon/halon recovery equipment certified to meet EPA's minimum requirements ? (KS 200-1, 2-3)			
H050834	What is the hazardous waste generator status? (KS 200-1, 10-14)			
H050835	Does the facility generate less than (<55 lbs) fifty-five pounds of hazardous waste per month? (KS 200-1, 10-14a)			
H050836	Does the facility maintain an EPA ID Number? (KS 200-1, 10-15b)			
H050837	Are hazardous wastes/materials stored and handled properly? (KS 200-1, 12-7)			
H050838	Does the unit have an inventory of hazardous materials (updated within six months)? (KS 200-1, 12-4a)			
H050839	Are all containers labeled appropriately? (KS SOP 200-1, 10-13a)			
H050840	Are Material Safety Data Sheets (MSDSs) available for each of the materials listed on the hazardous materials inventory? (KS 200-1, 12-5)			
H050841	Are flammable materials stored in flammable cabinets? (KS 200-1, 12-7c)			
H050842	Is adequate spill response equipment available for the materials being stored? (KS SOP 200-1, 12-6)			
H050843	Does the site contain a Mobile Fuel Tanker? (NGB MFT Policy Memo Date [Revised October 2007])			
H050844	If YES, is it parked on secondary containment? (NGB MFT Policy Memo Date [Revised October 2007])			
H050845	b. If YES, are ARNG Oil Spill Prevention and Contingency Plans available in each Mobile Fuel Tanker (MFT)? (NGB MFT Policy Memo Date [Revised October 2007])			
H050846	If, YES, does the MFT contain an on-board spill response kit? (NGB MFT Policy Memo Date [Revised October 2007])			
H050847	Are parts cleaners used on site? (KS 200-1, 10-19e)			
H050848	If yes, name the number at your facility and the type of solvent. (KS 200-1, 10-19e)			
	E. LOCAL TRAINING AREA (LTA) MANAGEMENT			
H050849	Does the unit/facility use any Local Training Areas (LTAs)?			
H050850	Has the Local Training Area agreement form been completed (including being			

	signed by all parties), approved by DOFE, G3, and JAG, and a copy maintained?			
H050851	Are signed copies of the KSARNG Environmental Checklist (including Records of Environmental Consideration) for all Local Training Areas maintained on site?			
H050852	Are Local Training Area agreement forms less than three years old?
