

State Emergency Alert System Committee Meeting
June 30, 2011

Committee Members Present:

Roy Baum
Kent Cornish
Dave Schroeder
Joe Cvetnich
John Crosby
Natalie Davis
Jonathan York

State EAS Committee members present worked through the current State EAS Plan and identified areas that needed to be revised.

- Kent Cornish and Roy Baum will provide updated information for radio and television broadcasters to be put into the plan.
- At this point, it is uncertain what will need to be included in the State EAS Plan to encompass the Integrated Public Alert and Warning System. FEMA will be conducting conference call webinars with state stakeholders. A better idea of what will need to be included in the Plan will be gleaned from the conference calls.
- Jonathan York advised that he has the local EAS Plan template completed.
- Jonathan York and Natalie Davis will continue to work with Roy Baum and Kent Cornish to complete State EAS Plan revisions. After the revisions are complete, the Plan will be disseminated to State EAS Committee members for review and we will conduct a meeting for promulgation.
- The meeting adjourned at 1:55 PM.
