

## Mounted Color Guard

In response to concerns regarding the ability of full-time personnel to participate in the Kansas National Guard Mounted Color Guard the following guidelines apply:

1. Technicians who volunteer for the MCG are granted 9 hours of administrative (excused) leave per month and may not exceed a cumulative total of 108 hours per year. This excused absence is for CMG training purposes only.
2. When technician volunteer to perform MCG duties as part of a detail they must be placed in a military duty status and take appropriate leave from their assigned technician duty position for the period of travel to and from the detail as well as during the performance of the MCG detail. Guidelines for MCG detail will be handled the same as technicians performing Military Funeral Honors Duty (see guidance in TPP 610 para 2-12B).
3. Coverage under the Federal Employees' Compensation Act for injuries incurred while on excused absence will be determined on a case-by-cases basis by the Department of Labor.
